

## Meet the Wellelate App

A new way to keep your patients connected with your practice and engaged with your online dispensary. Powered by Emerson Ecologics.

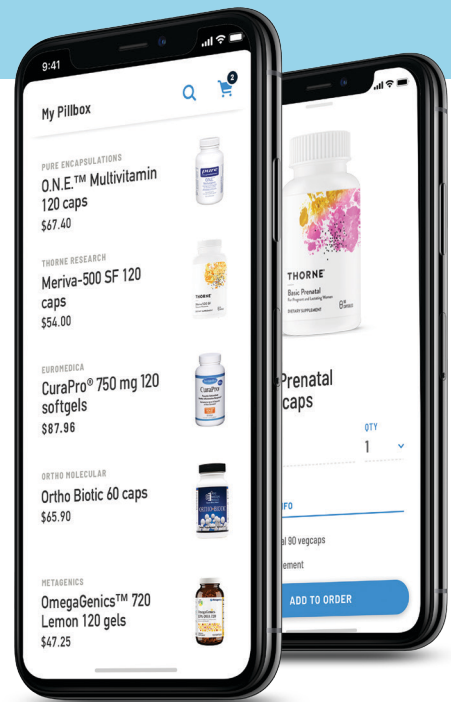

Wellelate's patient app puts the power of your practice into your patients' hands. It's the easiest way to order and refill because your recommendations are always within reach.

### A NEW LEVEL OF PATIENT CARE

As a Wellelate practitioner, you provide patients with a connection to your practice that supports better outcomes. Now, we're giving you another tool to make that connection even stronger. With the Wellelate app, patients can access new features for a truly personalized experience when *you're* off the clock and *they're* on the go.

Ask your patients to

## TALKING TO YOUR PATIENTS ABOUT THE WELLEVATE APP

With effortless, anytime access to your treatment plan, patients more easily stay on track while maintaining a connection to you and your practice.

### YOUR RECOMMENDATIONS

- Patients can easily view and order custom recommendations, including any notes, attachments or downloadable documents you provide.
- Dosage and frequency are always close at hand.

### ORDER HISTORY AND FAVORITES

- My Pillbox contains your recommended products as well as their order history and favorites.
- The app syncs with existing Wellevate accounts so patients can order what they need, FAST.

### AUTO-REFILL

- With the Wellevate app, signing up for auto-refill every 30, 60 or 90 days is easier than ever.
- Encourage patients to choose auto-refill from the start so they easily stay on track with your recommended plan.

### BARCODE SCANNER

- Patients can scan bottles from your office and favorite them for easy re-ordering from My Pillbox.
- If you also sell supplements in office, encourage barcode scans as part of the initial purchase process.

With the Wellevate app, you're on the road to improving patient outcomes through a stronger connection.
